Assessing Levels in 2 Townships Assailed

GC Assessor Asks For New 1963 Valuations In Nameoki, Chouteau

Assessing practices in Nameoki and Chouteau townships were attacked today by Granite City Assessor Van Dees, who urged that the Granite City school board seek re-assessments for the 1963 tax year.

Estimating that the school district is being deprived of \$300,000 to \$500,000 yearly, the assessor appealed for elimination of assessment inequities before taxpayers are asked to approve higher tax rates, such as for construction of new schools.

Citing figures given by Granite City Board of Realtors, appraisers after spot checks in 1960, Cruse said assessments average 50% of market value in Granite City, 28% in Nameoki township and 34% in Chouteau township.

He said this is unfair in such taxing districts as the Granite City school system, which encompasses parts of all three townships and has a tax rate that is applied uniformly regardless of differences in assessing procedures.

Suggests Action By Musso

Cruse suggested that the school district take whatever steps are necessary to have the assessment Board of Review in strict County Treasurer George Musso to make a survey of property sales in Nameoki and Chouteau townships and then order the two townships to be reassessed for the 1963 tax year.

The assessor announced mailing of the letter to the school board late Thursday afternoon. It does not appear on the agenda of the board meeting scheduled for tomorrow night.

Text Of Letter

Text of Cruse's letter follows: Granite City School Board Gentlemen:

I wish to bring to the school board members' attention a matter of growing importance to the school district, the property owners and the taxpayers of Granite City.

We all realize that our school district is bursting at the seams and that there is a need for additional classrooms, additional teachers, and other personnel to staff these facilities if they are provided.

As recently reported, you are deeply involved in plans for the immediate and distant future and the need for money with which to finance your plans is not easily found. It may even be necessary to promote a bond issue and ask for a tax rate increase the maximum legal tax rate which applies to the school district.

As you know, the school district consists of Granite City township and parts of Nameoki, Chouteau and Venetia townships. The school district's one total tax rate is the same for each township, and therein lies the problem. Assessment methods vary from township to township, causing the property owners in each township to pay taxes which in some cases are fair and in some cases very unfair.

If the property assessments

Plan Director Is Hired By Agency; To Start Jan. 16

Theodore Miskell, director of planning for the City of Boulder, Colo., was chosen from among 15 applicants to serve as the first executive director of the Metropolitan Area Planning Commission at a meeting held Thursday night at the Holiday Inn. He will assume the post Jan. 16.

Miskell, a professional planner with college degrees in that field, will be paid \$13,000 a year, and accepted a contract that coincides with the Illinois legislative session. Moving expenses, estimated at \$600 to \$800, also will be reimbursed by the planning commission.

The new director, who was the unanimous choice of the 19 commission members present, is 38 years old, married and has two small children. A special commission was appointed by President Alton May to find office space centrally located in the Madison-St. Clair corridor area served by the commission.

Treasurer Edward Holzner reported a balance of \$35,772 of Dec. 3 out of a state apportionment of \$37,500 to SIMAPC. It was pointed out by commission members that the new director's duties will include obtaining data on the bi-county area for planning purposes, as well as assistance to both counties and cities in developing orderly growth processes. He also will be expected to represent the area in relations with other planning organizations nearby, including those on the west side of the river.

Study Bi-State Plan

President May reported on a recent Bi-State Planning Agency planning meeting, which he attended, and suggested that appointment of a representative on the proposed bi-state plan be postponed for more complete study. While there was no opposition to the bi-state proposal, it was felt there should be a better understanding of it.

The bi-state committee, made up of equal representation from both sides of the river, is to develop a procedural plan for regional coordination of planning. This is required under a 1962 federal act, effective July 1, 1965, in order to qualify for federal highway funds.

Wind Driven Snow Packs, Causes Hazards

Yesterday's drive snow, which fell in the morning, afternoon and evening, measured only .03 inch at the city garage.

Fire that spread from an artificial fireplace on the main floor damaged basement ceiling joists at 3:55 a.m. today at the Dan Hedden residence, 902 Washington avenue. Motion picture film was destroyed, and the firemen credited a prompt call with helping them to limit damage to \$25.

They said an inch-and-a-half asbestos base on the fireplace apparently was insufficient to contain the heat. Smoke aroused members of the family.

Fire of unknown origin caused severe damage to the interior of the parked 1960 convertible auto of William Hrusowski, St. Louis, crash reappeared on downtown streets at 4:35 a.m. today. The right front door was open when firemen arrived.

State Legislative Group To Probe Levee District

A study on the operations of the East State Levee & Sanitary District is to be conducted by a legislative committee, with public hearings to open after the first of the year.

The aim of the commission is to obtain a clear picture as possible on the operations of the district to determine if additional remedial legislation is required. Recent legislation calls for votes on bond issues and assurance of Madison county representation on the Levee Board.

State Sen. John A. Graham (R-Barrington), conferred with Levee Board officials Thursday afternoon in East St. Louis in instituting the study.

He asked that before the end of the month the district officials provide the commission with a list of facts, to be studied before the first public hearing is called.

Included are claim sheets, financial reports, and organization of the public and of municipalities, and organizations to present any information they may be able to contribute.

The hearings will be non-political, Graham said. A five-man advisory committee was created by the last session of the General Assembly. It includes three Republicans, and also is investigating operations of the Chicago Sanitary District. Both districts are authorized to issue bonds for construction plant.

May Boost Bond Figure

"We may have to revise that \$1,715,000 figure upward for the construction of the treatment plant on the location of the plant on Granite City Army Depot property," Moerlein said.

The original plans called for the treatment plant to be located near the city's sewer outlet into the Chain of Rocks canal.

However, the depot has designated a site near Chicago street on its property which is some

Miss Diane Briggs, 20, Killed On Route 162; Roads Icy From Snow

Street and highway accidents totaled 28 in the Quad-City area during the weekend and took a toll of 14 fatalities and one fatality, Miss Diane Briggs, 20, Troy, Ill., a former Granite City resident.

Many of the collisions occurred after a wind-whipped snow showers and plunging temperature cooled roads and streets with ice yesterday evening. Ravens were still hazardous today as the mercury remained in the mid-20s post noon.

CRASH VICTIM, Miss Diane Briggs, 20, who was killed Saturday.

The auto collision on Route 162 east of Granite City at 11:50 a.m. Saturday took the life of Miss Diane Briggs, 20, as she was driving home from work as a secretary at the Bloodworth real estate agency, Suite 200, 1600 S. Main.

The former Granite City resident was dead by the time she was rushed by ambulance to St. Elizabeth Hospital. She and her family had moved to Troy eight years ago.

State police said Miss Briggs was driving north on Route 162 and the auto of Herman Scott, 51, of 312a Madison avenue, Madison, was leaving State Road 35 to turn left and proceed south on Route 162.

The left front of each vehicle took the brunt of the impact. The car driven by Miss Briggs was halted by the crash in the middle of the pavement. The Scott auto was fractured and sideways, its front coming to a halt in a slight ditch on the western side of the highway.

An inquest is to be conducted by Deputy Coroner Henry Phelps.

Madison Couple Injured

Scott and his wife, Myrtle, 59, were brought to the local hospital in another ambulance and both were admitted for treatment. The mother-in-law suffered fractures on the right elbow and right elbow and chest pains, and his wife had pain in the left side of the chest, right arm, abdomen and both knees and a forehead abrasion.

Miss Briggs resided with her parents, Mr. and Mrs. Randall Briggs, at 208 Twin Lakes, near Troy, was a member of Granite City and Troy schools and graduated from Tiedrich high school.

Besides her parents, she is survived by a sister, Mrs. Norah (Shirley) Briggs, 80229 the Madison, three brothers, Randall Briggs Jr. of Troy, Michael Briggs, 16, Troy, and Mark Briggs, 15, Troy, and a brother, Robert Briggs of Troy.

Among her other relatives are three uncles residing in Granite City: Robert and Richard Briggs and Jay Rainwater.

The family said she was engaged to Sam Fazio. An obituary notice is given elsewhere in this issue.

Three Persons Hurt

Three persons were hurt in a 1955 Lincoln sedan, 37, of 2505 Lincoln avenue, was thrown from her car and her two children were injured in a collision with an auto driven by Charles Van Zandt, 26, of 2825 Maryville road, at 3:40 p.m. Sunday at Edgewood and St. Clair avenues.

The children, a boy, 10, and a girl, 10, were admitted to St. Elizabeth Hospital. Mrs. Edwards suffered a half-inch laceration to the tongue.

X-rays were taken. Edwards' auto was headed north on Edgewood and was crossing St. Clair. Van Zandt, headed east on St. Clair, told police he was driving north.

Sewer Connections

"We have several sewer lines leading to the pumping station, and if the new location for the treatment plant is final, then sewer lines will have to be built to connect those lines onto the treatment plant," Moerlein explained.

The chairman said the revenue bond issue ordinance may be ready by Dec. 16 meeting of the council, depending on a decision for the location of the treatment plant at the depot.

No regular meeting is set for tonight. However a meeting of council committee chairman is scheduled, regularly for 7 p.m. on the second Monday of each month.

Moerlein said if a sufficient number of children is present tonight, he will present a report on Friday's cutter Chicago street on its property which is some

distance from the city's sewer pumping station, also located on depot property.

Notices Of Jail Procedures To Be Posted-In Jails

Notices outlining the proper handling of prisoners will be posted beginning Jan. 1 in all city jails, police stations and other buildings where persons under arrest are held in custody.

The requirement is being pointed out to county and city law enforcement officers by Joseph R. Bartylak, assistant state's attorney, who notes that failure to comply with the posting regulation would make the person who is responsible subject to forfeiture of his office or job, a \$1000 fine and imprisonment for up to five years.

The new code of criminal procedure, which went into effect simultaneously with the new judicial system, requires that "every sheriff, clerk, warden, or other person who is in charge of any jail, police station or other building where persons under arrest are held in custody pending investigation, bail or other criminal proceedings . . . post in a conspicuous place, where it may be seen and read by persons in custody, a verbatim copy of the English language of the provisions" of the new code.

The following wording is being suggested:

Take notice:
The Statutes of the State of Illinois provide as follows:
1. Treatment while in custody.
(a) On being taken into custody every person shall have the right to remain silent.
(b) No unlawful means of any kind shall be used to obtain a statement, admission or confession from any person in custody.

2. Right to communicate with attorney and family; transfers.
(a) Persons who are arrested shall have the right to communicate with an attorney of their choice and a member of their family by making a reasonable number of telephone calls or in any other reasonable manner. Such communication shall be permitted within a reasonable time after arrival at the first place of custody.
(b) In the event the accused is transferred to a new place of custody his right to communicate with his attorney and a member of his family is renewed.

Conference With Lawyer
3. Right to consult with attorney.
Any person committed, imprisoned or restrained of his liberty for any cause whatever and whether or not such person is charged with an offense shall, except in cases of imminent danger of escape, be allowed to consult with any licensed attorney at law of this state whom such person may desire to see or consult, alone and in private at the place of custody, as many times and for such period each time as is reasonable.
When any such person is about to be moved beyond the limits of this state under any pretense whatever, the person to be moved shall be entitled to a reasonable delay for the purpose of obtaining counsel and of availing himself of the laws of this state for the security of personal liberty.

Preliminary Hearing
(a) A person arrested without a warrant shall be taken without unnecessary delay before the nearest and most accessible judge in that county, and a charge shall be filed.
A person arrested on a warrant shall be taken without unnecessary delay before the judge who issued the warrant or if he is absent or unable to act before the nearest, or most accessible judge in the same county.
(b) The judge shall:
(1) Inform the defendant of the charge against him and shall provide him with a copy of the charge.
(2) Advise the defendant of his right to counsel and, if indigent, shall appoint a public defender or licensed attorney at law of this state to represent him in accordance with the provisions of Section 113-3 of this code.
(3) Hold a preliminary hearing in those cases where the judge is without jurisdiction to try the offense; and
(4) Admit the defendant to bail in accordance with the provisions of Article 110 of this code.

Volunteers Sought For March Of Dimes

Volunteers are being sought for the January March of Dimes campaign. It was announced today by Mrs. Max Merz, Granite City chairman, and Mrs. Charles Wood, Madison chairman.

"What we want," Mrs. Merz said, "is what you could call child savers. Maybe our typist volunteer will do no more than answer the telephone, address envelopes or collect money for us."

The two campaign leaders explained that funds raised in January "might well make new lives possible for childhood victims of birth defects and arthritis — children whose condition was considered hopeless just a few years ago."

This year, stress will be placed on aiding in research involving birth defects, arthritis and disabling rheumatic disease.

Volunteers are being sought who can spare an hour or more a week.

Police Urge Caution Against Yule-Time Crime

With the Christmas gift shopping season in full swing, Granite City Police Chief Raymond Willard urged shoppers and businessmen to take special precautions during the period of such crimes as hold-ups, shoplifting, bad-check passing and burglaries can be expected to increase.

In cases of hold-ups, he advised persons to obtain as good a description as possible such as age, height, weight, clothing and scars or marks; how the subject left, which direction he took, the means of transportation used, the vehicle and color, license numbers if possible and the state where the license was issued.

The type, color and size of weapon used, the kind of money taken and what it was carried away in. He advised against routine trips to the bank for deposits.

Watch For Shoplifters
Regarding shoplifters, Willard said clerks should be cautioned to watch persons carrying large bags, don't let them take many dresses or suits in dressing rooms, and be cautious of shoppers coming into the store in groups.

He urged extra caution in cashing personal checks. Know your endorser. Ask for identification as driver's license and social security card. Always get the address. Call the bank for verification if in doubt.

To protect against burglaries, the chief advised: When you leave your business at closing time, be sure that all doors are locked. Make sure that all windows are in. Leave a light burning at the rear of the store so officers can see inside the building.

Be sure that the police department has your night contact phone number. Be sure that you can identify your merchandise by serial numbers or other marks. Be sure the windows and

Venice Gets 5th Win In Great Comeback

When Bunker Hill's Minutemen went ahead of the Venice Red Devils 17-3 in the first quarter Friday night, Coach Bill Ohlendorf was naturally worried.

"I thought we were out of the ball game," he said. "But the Devils, using well-distributed scoring, came back to make the next 20 points and win the Madison-Clinton-Macopin Conference game going away, 84-65."

Everything was rolling around the hoop and out in that first quarter, Ohlendorf said. "We had seven field goal shots in a row—none over eight feet long—and we missed 'em all!"

The amazing comeback saw Venice tie the score at 17-17 at the quarter mark with 14 straight points, then six more points to start the second period, and the Devils never again were behind.

Blazing Finish

Not that the Minutemen gave up. They came within four points in both the second and third quarters. But, in a red-hot fourth quarter, the Devils outscored the visitors 27-12.

Freshmen Rich Essington led the balanced scoring with 21 points. Totals for the other four starters were: Ken McMullen 20, Paul Sinton 17, John Robertson 15 and Howard Black 12. Mike

Morris' 19 topped Bunker Hill. The triumph brings the Devils' overall record to 5-1 and their MCM mark to 2-0. They'll have a chance to test the other conference teams in the MCM tourney this week at Breese.

Venice, unused in the tourney, meets third-ranked Livingston at 7:30 p.m. tomorrow. Westlin is seeded first and Bunker Hill second.

"I guess we're in the darkness," said Ohlendorf.

Jaycees Open Sweepstakes Bowling Meet

The fifth annual handicap bowling sweepstakes, sponsored by the Junior Chamber of Commerce, begins tonight at Tri-Mor Bowl and Bowland.

The tourney will run through Friday night. It is open to all bowlers for a \$1 donation.

Scores rolled in the entrant's regular league action during the week will be counted. Jaycees will be at the two bowling alleys each night to sign up parliant.

Estimated prizes, based on a probable enrollment of 400 men and 400 women, will be \$100 each for the first-place winners in the men's and women's divisions.

Second-place finishers will receive an estimated \$50 and third-placers will get an estimated \$25. The high single scratch and the high series scratch in each division will bring estimated prizes of \$12.50 each.

Winners will be determined on a handicap of 70% of the difference between 210 and the bowler's actual average during the week. Prize winners will be announced Dec. 19.

In charge of the tournament for the Jaycees are Earl Dotzauer, Morris Miles and Paul Morris.

Madison Tops Roxana In Midwestern Game

Gallantly shunning the 100-point mark, the Madison Trojans breezed past Roxana's Shells 94-33 in their first Midwestern Conference test.

The Trojans were never in trouble and Coach Earl McClanahan used everyone in uniform in the Friday night encounter at the Madison gym.

Madison scored more points in the first half (54) than Roxana did in the entire game. The Shells, who were 2-24 last season, are off to another poor start with three straight losses.

It was the second victory in three tries for McClanahan's crew and, although the Trojans are steadily improving, the coach isn't entirely satisfied.

"Our defense still isn't polished. We've still got a long way to go on it," the coach said. "Like I said before the season started, how well we do depends on our defense."

Offense Sound

McClanahan is operating on the theory that his offense is sound and will take care of itself. It certainly did Friday night.

Six players hit in double figures, headed by Gary Skinner, 21 points, which included 19 in the first half. Paul Lusk scored 16, Cecil Bell 14, Dale Turner 12, Hayes Wright 11 and John Summers 10. Lusk led in rebounding with 14 as the Trojans

controlled the boards 43-25.

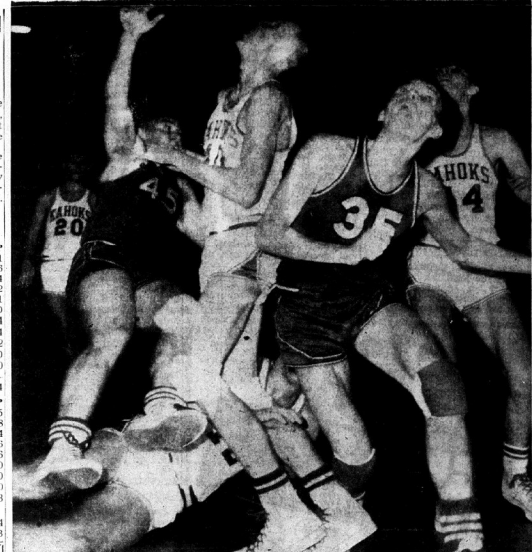

Reserves played most of the second half for Madison and, even then, only six points kept the team from the three-figure mark.

Madison opens play in the O'Fallon Invitational Tournament at 8:30 p.m. Thursday against the winner of the O'Fallon-Columbia first-round game. Six teams are entered.

'IS IT A BIRD? A PLANE?' Nope, a basketball. A fourth-quarter shot by Granite City has captured the attention of Granite City's Jim Cant (35) and Collinsville's Roger Bohnenstiel (center) and Mike Cook (right). Joe Hiles (45) is more concerned about where he'll land as he falls backward over the Kahoks' Rich Moore. Joining the capacity audience in watching it all is Jerry Schoke (20).

Granite City Loses 83-54

Here a star, there a star,

Some lose their way.
Here a miss, and there a miss:
Afterwards—dismay!

Sony, Emily Dickinson, but a few words had to be changed to fit the sad occasion. That being Granite City's 83-54 basketball loss Friday night at Collinsville.

As the English teacher would ask: What does the poem mean? Quite simple, class: Here Roger Bohnenstiel and there Jerry Schoke, and the Warriors lost their way through a zone press. Here a miss and—oh well, the rest of the rhyme is self-explanatory.

Dismay wasn't confined to afterwards. It was written all over Coach Andy Sullivan's face as his team fell behind the Kahoks' 28-8 in the very first quarter.

All-Star In Form

In the opening minutes, Granite City went ahead 2-1, but the moment of glory was short-lived. With three minutes remaining, Collinsville was in front 17-7.

Bohenstiel, a 6-5 all-star, and Schoke, a 5-10 hustler, carried the defending Southwestern Conference champs in that first period. Bohnenstiel got half of his total of 28 points; Schoke 11 of his 17.

Meanwhile, Schoke led Rich Moore and Jack Darrington in back-court harassment of the Warriors, who lost the ball to their quick hands at least eight times in the quarter.

When the Warriors did happen to break through the press, Bohnenstiel and 6-6 Mike Cook were under the basket—all arms and legs—to bat down shots and pick off rebounds.

Most of the Warriors' field goal attempts had to be reckless shots—flicked through the clinging Collinsville defense. They hit 20 of 43 shots (44%); the Kahoks made 33 of 54 (61%).

Giving his starters a good workout in their second game, Coach Vergil Fletcher of the Kahoks didn't make a substitution until late in the third quarter, when Dave Russell replaced Darrington. Four others came in for the final minute and a half.

Sullivan, meanwhile, was forced by foul trouble to switch frequently. Larry Jolley had four fouls and Elton Hall and Joe Hiles three each in the first half. Collinsville also took the junior varsity game 71-62 after pulling away in the final five minutes.

Vince Debevec's 18 points and Elmer Worthing's 11 topped the young Warriors.

Next on the Warriors' schedule is another Southwestern game, home, Belleville. The Blaines will have next Friday night. Then the unpredictable East St. Louis Flyers pay a visit on Saturday night.

Sumner Height Too Much For Lincoln; Rams Go For 1st Victory At Kinloch

"Too much height," said Coach Stan Lynch.

Those three words summed up the problems Thursday night as the Lincoln Rams of Venice lost a 78-52 decision at Sumner of St. Louis in a non-league prep basketball game.

Most of Sumner's height is concentrated in 6-8 Eugene Moore, who scored 20 points and led his team's domination of the boards.

Lincoln's tallest man is seven inches shorter, 6-1 Rich Wooten. He and Franklin Wooten enlivened the meek Lincoln attack with 12 and 15 points, respectively.

The Rams trailed 23-8 after the first quarter and 63-39 after the third period. Take away those two periods and Sumner outscored them by a total of just three points.

With two losses in two outings, the Rams hit the road again tomorrow night for a game at Kinloch, Mo. "They're always real tough at home," said Lynch.

The Rams do not open their home schedule until Friday night, when Loydey calls.

Warrior Wrestlers Start Season By Knocking Off 3 Opponents

Granite City's Warriors opened the wrestling season with a splash—three straight victories, but Bill "Red" Schmitt, the high school's cautious coach, isn't overly enthusiastic.

"We're not up to par," he said. "Too many mistakes. We've got a lot of work ahead."

But the Warriors won't have much time for work before their next match at 7 p.m. tomorrow at Riverview Gardens, Mo. "Last year, we beat them by just seven matches to five," Schmitt said. "And this year they have eight of those boys back and we have but three."

At any rate, the Warriors served notice over the weekend that they haven't lost their traditional magic touch. In a traditional match Friday night, the Warriors downed Western Military Academy of Alton 43-3 and Roxana, 33-11. Then on Saturday afternoon they beat O'Fallon Tech of St. Louis, 29-17.

Three victories extended Granite City's string of victories over St. Louis and Southwestern Illinois teams to 113.

Seven Warriors won two matches without a loss. They were lettermen Paul Lapinski, Dan King, Gary Forshee and Tom Mofsky along with newcomers Ernie Keith, Steve Cavanaugh and John Evenden.

The team is short-handed in the 55-pound division, so Mike Reynolds wrestled in all three matches, winning two and losing one.

In a junior varsity match with O'Fallon Tech, Granite City won 35-15. Winners for the young Warriors were Rich Holdshon, 103 pounds; John Brooks, 112; Bob Finley, 120; John Kozayak, 127; Gary Ellis, 133; Mike Poyner, 138; Dale Keel, 146; and Benny Morgan, 165.

The varsity results follow:

Scoreless 1st Half Is Something New For Veteran Coach

After 33 years of coaching, it was a new one on Roger Davis. "This is the first time I've had this happen," he said.

Davis was referring to the scoreless first half his Venice grade school "A" team had in a 32-23 loss Thursday night to visiting East Alton. The halftime count was 18-0.

The second half was much better. "The boys fought back and we outscored them 23-13." Leading the Venice comeback were Russell Turner with 13 points and Rouzell Porter with 10.

The Venice "B" team lost too, 31-13, marking the fifth double loss for the school in five outings. But Davis isn't discouraged. "The kids are trying hard," he said.

Davis is hoping for the biggest turnaround in his 18 years at Venice on Thursday. That night, his boys will try to upset Bethalto, touted as the toughest junior high squad around.

Granite City firemen went to the address of Fire Chief Edna King, 2318 Washington avenue, at 12:20 p.m. Saturday—and not on a social call.

Burning trash had blown down the alley and set fire to a frame garage and storage shed owned by Chief King. The damage estimate was \$50.

Firemen were dispatched three hours later to the back yard at the home of Bonnie Grater, 2508 Poplar street, where scrap lumber had caught fire from burning trash. There was no loss.

The fire department washed away gasoline that had spilled at 5:10 p.m. Saturday at a service station at 20th street and Madison avenue. A line had broken while a truck was delivering gasoline for the station's underground tanks.

Fire Chiefs List Safety Precautions For Yule Trees

Quadt-Cities fire chiefs this month are stressing the need for exercising care while keeping Christmas trees in homes, stores, clubs and churches.

A set of safety rules has been devised by the National Board of Fire Underwriters to reduce the fire hazard involving trees. Make sure the tree you buy is fresh and avoid those with needles that drop off when you touch them. Keep it outdoors until the day you plan to decorate it and keep it fresh by standing it in a pail of water.

Place the tree in the coolest part of a room—away from radiators, heaters and the fireplace. The tree stand also should provide a container for water which should be kept filled as long as the tree is inside.

The fire chiefs urge Quadt-Cities to select only flame-proof decorations—those made of glass, metal or a fire-resistant material. Light strands should be inspected, and any that are frayed should be discarded.

Accessible Switch
A switch controlling tree lights should be a distance from the tree to reduce the chance of sparking from the electric switch lighting the tree. Avoid attaching the lights to a baseboard plug behind the tree.

Places where an electric train is part of a Christmas display should keep the tracks away from the tree since toy trains throw off sparks and sparks are a fire hazard.

Assign someone the task of making certain the tree lights are off when retiring for the night or no one is to be around.

And—check the tree frequently for dryness. If needles near a light have become dry and brittle, change the position of the light. If needles start falling on the floor, take the tree down and discard it.

Metal trees should never be decorated with Christmas lights. The National Board of Fire Underwriters says that use of the tree-lighting gives a safer and more attractive illumination.

As another safety precaution, the chiefs suggest that gift wrappings be discarded immediately.

Survey Seeks Data On Farm Labor Force

The number of Americans 14-and-over in the labor force who are in any kind of farm work during 1963 will be determined from answers to a December survey. Population Survey to be conducted in this area during the week of Dec. 15 by the U. S. Department of Commerce.

According to Theodore F. Olson, director of the Chicago Regional Office, U. S. Bureau of Census, the figures will update those released recently which showed that 3.6 million persons in the labor force were employed as hired workers on the nation's farms during 1962. The survey has been conducted regularly since 1945 by the Bureau of the Census for the U. S. Department of Agriculture.

Answers given in this survey, being taken in 337 selected areas of the United States, will help the Government in determining farm labor needs and in studying the special economic and social problems of migratory workers and other farm employees.

In addition to the questions asked annually on the number of days worked and cash wages earned, the Census Bureau interviews the December will ask information on the type and value of other benefits the hired farm hands got from their farm-employers. Included will be questions on free housing, meals, food products and other benefits.

The questions will supplement the regular questions asked each month on time worked by those in the labor force during the week before the interview from which the Nation's employed-unemployed figures are derived.

In October the survey showed 3.3 million of the 76.1 million persons in the labor force were out of work. The comparable figures for the same month year ago are 3.3 million and 74.9 million.

It boosted the total for the year to 28,461,202 tons, nearly two million tons ahead of the first 11 months of 1962. It also was 56,650 tons over the tonnage for November of last year.

All of the freight was commercial except for 700 tons of government goods.

S. towboats, 249 federal barges, 22 government small craft, eight U. S. construction boats and 71 patrol boats.

Of the total commercial freight, 1,145,170 tons moved upstream and 1,538,700 tons went downstream. The types of commodities, listing amounts headed upstream first and then downstream, include:

Petroleum products, 419,300 and 194,275; grain, 7600 and 1,154,000; coal, 238,500 (up only); cement and gravel, 8500 and 12,800; sulphur, 32,500 (up only); miscellaneous commodities, 330,200 and 67,275; iron and steel products, 14,500 and 64,600; and chemicals, 94,070 and 24,000.

SAFETY PROGRAM TRAVELING TROPHY at St. Elizabeth Hospital, the first such award presentation was made last week to the housekeeping department for November. Left to right are—Mrs. Bertha McKinney, executive housekeeper; T. E. Rebert, hospital methods director who made the presentation; Mrs. Arlene Zaraza, representing the housekeeping department employees; and Bernard T. Pinney, personnel director.

Employee Safety Program Under Way At Hospital

A safety program for employees at St. Elizabeth Hospital went into full swing last week with the first award presentation based on November records.

T. E. Rebert, the hospital's methods director, said the first base record now has been established and from this point the hospital is "ready to challenge itself to elevating that base record."

"The program is four-fold," he explained, with the first award a traveling trophy, presented to the department with the greatest percentage of accident reduction in a month's time.

Church Awards

A separate award system also is being established, with an honor department to receive a chevron for each continuous accident-free month. The department leading in months of accident-free experience will be placed on top.

"Finally," Rebert said, "There is recorded on the 'safe hospital' monthly honor roll a 'standing' rating in any special prevention-of-the-month promotion to complete the hospital's new approach to hospital safety."

The December promotion addresses the protection of hands while pushing stretchers through doorways and narrow spaces.

The entire program, it was pointed out, is for the St. Elizabeth Safe Hospital Plan to reduce the minor accidents occurring during a hospital working day.

November Award

For November, the traveling trophy award went to the housekeeping department for a 75% reduction in accidents.

Twenty-one departments out of 36 have perfect, accident-free records at present. These include administration, beauty shop, chapel, credit union, inhalation therapy, laundry, library, laundry, records room, methods improvement, nursing service, nursing education, maternity, personnel, purchasing, pharmacy, physical therapy, print shop, recovery room, sewing and X-ray.

In accident prone departments, the number of mishaps to date is 31 in the highest department and one in the lowest department. Of 114 accidents, mostly minor, since last July, three were off-time accidents.

As yet, the National Safety Council annual hospital safety contest data has not been made available to St. Elizabeth Hospital.

County Construction Total \$1,104,550

Building permits issued in the county during November totaled \$6 with a value of \$1,104,550, it was announced at Edwardsville by county building official Charles J. Erspamer.

The 86 permits included 63 for residences, 17 for garages and additions, four for commercial structures, and one each for a duplex and a church.

Fees from building permits amounted to \$1752 while zoning use permits and zoning hearing fees netted \$610.

Price Predicts Kennedy Proposals Will Be Approved

Congress will be legislating for years to come in the area of proposals first urged by the late President Kennedy, Rep. Melvin Price (D) told the House last week, and some proposals "most certain to be acted on next year will constitute a legislative memorial to the assassinated Chief Executive."

Proposals clearly stated for action in 1964 "have great weight and significance in such field as human rights and the education of our young people," Price said, "and in the broadest possible sense will be actions in the public interest and for the general welfare."

Eulogizing the fallen President on the floor of the House, Price said that Kennedy in his brief term had crowded "so much activity, such urgency of purpose, such vitality of spirit, that he left a permanent imprint on our nation."

"The term was brief, he was most brutally cut down, and nevertheless he has most powerfully influenced the ongoing of our people."

Recalls Service In House

Many now in the House had served with Kennedy when the assassinated President was a representative from Massachusetts. Price observed, and "all have known him in the presidency to which he brought both zeal and wisdom, both courage to act and patient resolution in seeking to persuade others to act."

He cited two incidents regarding Cuba as examples of Kennedy's "courage and integrity"—the first his success in forcing the Soviet Union to withdraw its missiles and rocket launchers from Cuban bases, the second his candor in acknowledging responsibility for the earlier "Bay of Pigs" disaster. He "bluntly acknowledged that whatever blame attached to officials should be laid at his door," Price pointed out.

"The people's estimate of John Fitzgerald Kennedy's leadership was measured in the outpouring of personal grief when he was senselessly and most savagely struck down," he pointed out.

"Men and women the world over wept in personal grief because they recognized in him a man of peace, a man worthy of trust even in other nations."

Tremendous Capabilities

"Here was a President who could talk about poverty in America to a labor convention where it would be expected, and at the same time to an entirely different audience, such as the group of scholars and writers recently gathered for groundbreaking ceremonies for a library," Price told the House.

"There was no political need, assuredly, for John Kennedy to 'urry favor with an academic audience by discussing the obligation of our best-educated and most-favored citizens to play their part in meeting the problem of poverty, but that is precisely what he did," the Illinois congressman continued.

"He was deeply disturbed by the discovery that we have vast quantities of 'inherited poverty' as well as 'inherited wealth,' and he urged young college men in their future lives to 'help do something about it.'"

"To me that spells a moral commitment to the achievement of a moral end," Price said.

CIRCLE MEETS

AT WILMOTH HOME

The Evelyn Hayes circle of the Temple Baptist Church met Wednesday with Mrs. Alice Williams, 1440 Third Street, as hostess. The circle will meet the first Wednesday of each month and has been named after a missionary.

Mrs. Elouise Bourland, arranged the program for the afternoon meeting. Mrs. Rose McIntire is community mission chairman.

Plans were made to meet in the home of Mrs. Sylvia Davis on Dec. 18 to prepare gifts for shut-ins of the church. The group made plans to observe a week of prayer.

Those taking part in the meeting included Mrs. Davis and her great-grandson, Mrs. Grace Davis, Mrs. Powell, Mrs. Bonnie Lackey, Mrs. Edna Lackey, Mrs. Marie Miller, and David McIntire, grandson of Mrs. Rose McIntire.

BROWNIES TO HOLD

CHRISTMAS PARTY

Brownie Troop Three met Wednesday afternoon at the Harris school with the leader, Mrs. Thelma Skelley, and co-leaders, Mrs. Bernadine Wedder and Mrs. Mary Hendrickson. The meeting was opened with the pledge of allegiance to the flag, after which the girls worked on Christmas presents. Plans were discussed for the meetings to be dismissed, starting next Wednesday, at 4:30 p.m. and to the early darkness. The meetings will start as soon as school is dismissed and close early during the winter months.

The Christmas party for the troop will be held Dec. 18. More About

Fatality, 14 Injuries

(Continued from Page 1.)

police he applied his brakes

about 20 feet before the impact.

His car slid 35 paces after the

accident, the report said. He

was charged with driving without

a driver's license, and Mrs. Ed-

wards was charged with failure

to stop.

Car Rolls Down Embankment

Barry J. Wilson, 30, of 612

Second street, Wood River, was

severely injured at 10 p.m. Sat-

urday when his auto left for-

ward from 612 on Illinois route

Three a mile-and-a-half north of

Bypass 66. It rolled down an em-

bankment on the east side of the

road and entered a field.

State troopers said he appar-

ently lost control of the vehicle

on a curve of the access road. It

was raining when help was sum-

moned, and he was removed by

ambulance to the Wood River

Township Hospital. He was alone

in the auto.

Injury, arrest of driver

described as the same as that of

a crash occurring on the night of

Monday, a Roxana woman was

injured.

His Light Pole, Parked Cars

Three auto and a broken street

lighting that disrupted Venice

avenue last night, the police re-

ported. The light pole, which

was located on the corner of

Madison place after a series of

hailstones involving the auto of

Raymond, was assessed at 30%

of market value.

Almost four years ago, a com-

plete set of assessments and val-

uations and their findings were

started.

Averages Compared

Granite City township, on an

average, was assessed at 30%

of market value.

Named and Chouteau town-

ships, on an average, were as-

sessed at 28% to 34% of market

value.

These findings were reported

to the Board of Review at that

time, but since it was not

quadrant year, they could not

order a reassessment of the

property in the underassessed

avenues.

When the recently-completed

quadrant property assessments

are published, the city will be

in a position to make a

decision as to whether it should

do so. A new spot

check of assessments has been

made and I am sorry to

report that the situation has not

changed.

Granite City property owners

will continue to pay their fair

share of the cost of the city

by the school district, and property

owners in the other two town-

ships will not.
